

## In the beginning

### Before Starting Experiment

Before we begin.....

I am here just to help you if you run into any issues or in case if you have any questions.

Please feel free to ask questions **at any time**.

Please turn off or silent your phone.

Now we can begin...

This is the consent form (points at the survey's first page), please go through this carefully.

### After demographics

Ok now we play the game!!!

You can put on the headset and let me know if you can hear any sound.

I am going to start recording.

Just the gameplay is being recorded, and not your video or voice.

I will quickly check the (game) controller if is on.

Try pressing any button.

(If the game reads controller as primary input) Right it is working.

Just one more thing before we begin! Play the game as you would play game normally

I will be sitting near by and just doing my work so you can completely ignore me.

This is the tutorial for the game, please go through this slowly so you understand how to play the game.

## **After completing the gameplay session**

Alright that was it. Now we fill in the survey!!!!

I am going to turn off recording and close the game.

### **GEQ Core**

Alright this is the survey.

As the heading states, please go through these statements carefully and respond how you felt **while playing** the game.

Keep in mind the scale here. They start from not at all to *extremely*.

And if you are not sure about any of the terms, please take a look at the document opened in the monitor next to you.

However, if you are not completely sure about any of the terms and they are not in the document, please let me know.

### **GEQ Social**

Similar to before and as the heading states, please respond to these statements about your feelings while playing the game.

Here, others refers to other characters in the game.

### **GEQ Post game**

Please keep in mind here that you respond to these statements about your feeling after you finished playing the game.

## **After GEQ**

Here are more statements. However, please notice that the scales here are different, as they start from extremely disagree to extremely agree.

## **After “Agency in story” questionnaire**

Now we take a 5 min break.

You can get some coffee or tea or the chocolets, everything on me. You can use the toilet if you want.

Your aim right now is to relax so please don't use your phone or talk to anyone. See you back in 5 mins.

## **After break (Agency due to choices questions already opened)**

Welcome back. We fill rest of the survey now.

Here you are going to see some videos.

These videos may have multiple clips and these clips are separated by a short black screen.

So, if you see a black screen, don't worry, there is going to be another clip after that.

Once you see the video(s) then you answer the questions.

You can put on your headphones again.

## **Question 1st and 2nd**

I want you to answer these questions by comparing your experience from the game and the information from the video.

## Questions 5th

Just a reminder, I want you to answer these questions by comparing your experience from the game and the information from the video.

## After All the “Agency due to choices” questionnaire/End

Alright that was it.

Before you go, I want to let you know few things.

If you have any questions, or concerns, you can reach out to me (through whatever medium was used to contact in the first place).

All of your data is stored on my computer and only I have access to it. My supervisor can only get access to this data once it is anonymized, ie your name is replaced by a tag.

As for your contact information, is it ok if I can contact you sometime later if I have further questions using those information? And, in case, I wont need to contact you, the information will be deleted from the database.

#####

With that we are done.

How are you feeling?
